chamber of commerce yesterday held a con-ference with Hartington, secretary of state for India, and presented a memorial urging the government to appoint a commissioner to represent England, and especially India, at the monetary conference. Hartington pointed out that there was some difficulty, owing to the terms in which the invitation of France and the United States was couched. As originally worded, it seemed to commit the governments accepting it to the adoption of bi-metalism, and the admission that the maintenance of gold as a

standard is impolitic. The government could not participate in any conference which as-sumed their willingness to abandon the gold taken place with a view to modifying the invitation, in order to permit England to accept it. a nice calculation as to how much they can contrive to live on. They have to live so close to the income that is provided for them, but not always paid them, that it is impossible for them to make provision for the future. I have better means than you of knowing the hardships, the heartbreakings through which men must often go, and have gone, who have given themselves up to the church and to their country. If I could be an autocrat I would have the standard of ministerial would have the standard of ministerial maintenance raised, and then men would be maintenance raised, and then men would be found all over the land to educate themselves for this profession instead of, as now, throwing themselves upon the beneficence of the church. We would then get the highest order of men for the ministry, and we should not be subject to the degradation as now of having to look east and west and north and south, and to Europe, to get men capable of filling those important places. There is much to reform, but until we have reached a more magnanimous system it is incumbent.

THE WHITTAKER TRIAL.

In the Whittaker court-martial yesterday expert Southworth testified that he had discovered that the paper on which the note of warning was written had been written over with a pencil, and this writing afterward erased with a rubber. The words erased were those used in the note of warning, and they were in the handwriting of the speci-mens of Whittaker's writing given him.

Who may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves or this, the greatest boon ever laid at the alter of suffering humanity. Dr. Spinney & Co. will guarantee to forfeit \$500 for every case of seminal weakness or private diseases of any kind or character which they undertake and fail to cure. They would, therefore, say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its effects.

There are many of the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for; on examining the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this

Houston, January 11, 1881.

To Whom it May Concern:

I called upon Dr. Spinney, at the Hutchinson House, after his arrival here, and placed myself under treatment for Catarth, which was very distressing and annoying to me. Now, after less than two weeks treatment, I can say I am well; I am a new man, free from all these distressing and annoying symptoms. I can heartily recommend Dr. Spinney and his treatment to all parties suffering with Catarth.
